Trauma Scene Cleaning

Death, traumatic injury, or hazardous contaminations are events that few people ever plan to experience. **RESTORx** recognizes that the times in which our services are needed are usually unpleasant and may even be tragic. We relieve others of this emotionally traumatic task discreetly, sensitively, and professionally, without publicity or sensationalism. Our team is dedicated to minimizing the affects of trauma and crime to family members and property owners. Our remediation methods insure that the property or dwelling will be safely usable within the shortest possible time.

RESTORx provides services for **residential, commercial & industrial** environments, which have been affected by the presence of biological infectious waste, blood or body fluids. We are dedicated to assisting **police, medical examiners, insurance companies, property owners and managers, commercial companies, & government agencies** in restoring property that has been contaminated as a result of crime, disaster or misuse.

The cleanup and decontamination of trauma scenes is serious work. Trained, certified, and experienced professionals should perform this work. Our staff consists of professionals who understand cleaning and decontamination procedures, complying with all **OSHA** and **WISHA regulations**. They are trained in specific areas such as **PPE, Universal Precautions, and Blood Borne Pathogens**. Our highly skilled team has performed numerous blood scene decontaminations and cleanups ranging in size and complexity from small bloodstains to large crime scenes. Contaminated items and other potentially infectious material can also release dangerous blood borne pathogens into the air you breathe. You owe it to yourself and your employees not to expose yourself to such potentially dangerous bio-hazards.

RESTORx provides the following services:

- Crime Scenes
- Natural/Accidental Deaths
- Industrial Accidents
- Trauma Scenes
- Medical Emergency Cleanups
- Suicides
- Decomposition
- Blood and Body Fluid Disposal
- Cleaning / Sanitizing
- Fingerprint Dust Removal
- Deodorization
- Containment, Removal & proper disposal of bio-hazardous risks
- Direct Insurance Company Billing
