If you are faced with a loss on a green property, enlist the help of **RESTORx DKI**, a **Green Risk Certified Professional**.

We understand that in today's environment, individuals and organizations continually strive to do their part in building or creating green environments. **DKI** has pioneered this movement by being the first & only disaster restoration organization to be green risk certified in building reconstruction & restoration services. Not only do we understand the makeup of green buildings, products used in green buildings, rating systems and insurance coverage as it relates to these elements, but we can ensure that if a green building sustains damage, the building will be restored using the most efficient green products in the marketplace.

# XTREME SERVICE

Whatever it Takes... **BECAUSE WE CARE!!!**
